

Lifetime Limited Warranty

For Gable Sheds, Barns, Loafing Sheds, Tack Rooms and Portable Garages

Innovative Enterprises, LLC d.b.a. Colorado Shed Company (CSC), offers a lifetime warranty to the original purchaser that their structure will be free from workmanship defects.

The warranty period will begin on the day that the structure is delivered.

The workmanship warranty does not cover the natural characteristics of wood to warp, split or twist. For structures that are purchased without paint or stain (primed or unstained siding), proof of paint or stain purchase within 6 months of the delivery date will be required for this warranty to be valid.

CSC reserves the right to repair or replace any components that, by their sole judgment, have failed as a result of poor workmanship. Examples of poor workmanship include, but are not limited to, a leaking window or siding that is loose. Damage that is deemed not to be a result of poor workmanship will be offered as repair at the current applicable labor rate and material cost.

Each of the applicable warranties for the products used in the construction of your structure will be transferred to the original purchaser of the structure.

This warranty does not cover acts of God, including but not limited to wind, fire, hail, snow, earthquake, flooding, tornados, etc. The warranty does not cover damage as a result of modification, additions, civil unrest, wanton damage, lack of maintenance or other like causes.

115 MPH WIND WARRANTY

To meet local code requirements for wind bursts of up to 115 mph (3 second gusts), anchors must be purchased from and installed by CSC in accordance with the engineering specifications. If ground conditions prevent the application of our standard ground anchors, different anchoring methods will be required at an additional cost. The purchaser will be required to sign a waiver which frees CSC of all warranty for wind damage should they decide not to purchase anchoring.

LEVELING / DOOR FUNCTIONALITY

Due to the nature of the portable structures to settle and shift, especially on unpacked pads, CSC will only warranty leveling and door functionality on pads that were made by CSC. If the pad is not made by CSC, we will ensure the doors work upon delivery, which may make the structure be slightly off level, but offer no further warranty on door functionality, such as sticking, latching, not latching, etc.

Warranty Claims:

To make a warranty claim on your structure, call 719-372-7433. Proof of purchase will be required.

Warranty valid for all structures purchased on or after February 1, 2022.
